PROFESSIONAL SUMMARY

Detail-oriented PLM Administrator with over 4 years of experience bridging mechanical engineering and enterprise software systems. Proven expertise in managing Teamcenter Active Workspace, validating complex engineering BOMs, and ensuring seamless data integration between PLM and ERP platforms. Leverages a strong background in automotive product development and cross-functional team leadership from Tata Technologies to optimize operational workflows, resolve system challenges, and support overarching business objectives.

EXPERIENCE

Nippon Audiotronix Pvt. Ltd. | Noida

PLM Admin | 11/2025 – Present

- Serve as the primary Teamcenter Active Workspace administrator for the entire organization, ensuring system stability, seamless user access, and operational efficiency.
- Review, validate, and comprehensively approve engineering Bills of Materials (BOMs), ensuring strict data accuracy and compliance prior to ERP system integration.
- Streamline the data transition pipeline between PLM and ERP systems to minimize documentation errors and improve manufacturing lead times.
- Troubleshoot system issues and provide direct technical support to cross-functional teams, optimizing overall Teamcenter utilization across the company.

Tata Technologies

Senior Manager | 06/2023 – 10/2025

- Managed and developed products and programs to optimize specifications and market introduction.
- Oversaw pilot programs with early-stage products to evaluate outcomes and guide development.
- Managed stakeholder expectations to ensure timely and budget-conscious delivery.
- Coordinated with Manufacturing team for proper fitment of parts and ensuring quality of the product.
- Coordinated with Service management team to timely execution of technical defects and improving service/sales ratio.
- Defined and executed launch plans to build market anticipation and excitement.
- Provided comprehensive oversight through meticulous documentation and strong communication skills.
- Conducted market and competitor analysis for new product benchmarking.

Tata Technologies Graduate Engineer Trainee | 06/2022 – 06/2023

- Led product development initiatives, optimizing specifications and market introduction strategies.
- Managed beta and pilot programs to test early-stage products and inform development decisions.
- Planned and executed the development of multiple prototypes for RDE Intermediate, Light, Mega, and Commercial Vehicles (ILMCV) projects.
- Conducted market and competitor analysis to benchmark new products.

Kalpataru Power Transmissions Limited (KPTL), Raipur Operation Intern | 06/2021 - 07/2021

- Collaborated with the plant's operation team to understand workflow and operational processes.
- Gained insight into processes for the development of power transmission poles and rods.

SKILLS

- **PLM & Project Management Tools:** Teamcenter TCUA, TCE, JIRA, PLM, SAP.
- **Product Management:** Agile Methodologies, Scrum framework, Sprint planning and review, Backlog management, User story creation, Product roadmap development.
- **Design & Engineering:** CATIA V5, CAA, CMI, PTC Creo, 3D Experience, NX, DFMEA, Ansys, Solidworks.
- **Data & Programming:** Python, VB.Net, Catia Script, HTML, CSS, Javascript, Visual Studio, Visual Studio Code, Google Analytics, Excel, Power BI.
- **Core Competencies:** Stakeholder management, Analytical Thinking, Business analysis, Problem-solving, Leadership, Adaptability.

EDUCATION

Kalinga Institute of Industrial Technology (KIIT), Bhubaneswar BTech: Mechanical Engineering | 2018 - 2022

- **GPA:** 8.42
- **Relevant Coursework:** CAD, CAE, 3-D Printing
- **Activities:** Member of Khayal Karma Kamyabi (K3) Society

ACHIEVEMENTS

- Promoted from Graduate Engineer Trainee to Product Manager at Tata Technologies with an "Exceeded Expectations" performance rating at the end of the financial year.

CERTIFICATIONS

- Teamcenter 14.1x Visualization Mockup - IGET IT @ Tata Technologies
- GOOGLE's Agile Project Management - Coursera
- Programming for Everybody (Getting Started with Python) - Coursera
- Certification of Mechanical Designs - Dassault Systemes
